Dermalogica's Commitment

For years Dermalogica's formulas have pioneered new standards for product performance. Using only the finest ingredients available all Dermalogica's products are non comedogenic and contain no occlusive mineral oil or lanolin. They have no irritating artificial colours or fragrance and have no drying S.D. alcohol.

Dermalogica is only available through professional skin care centres and spas with qualified skin care therapists. Dermalogica uses ingredients from renewable sources, wherever possible, and does not conduct any animal testing on its products.

Here at Parklands Country Club all of our therapists are fully qualified and committed to your relaxed well being. Our tranquil surroundings help to provide an exclusive body care experience. With our full range of beauty treatments we hope that there is something to suit each and every individuals needs.
